

Horses Foldable

Horses for the quick setting of a working scaffolding

- Adjustable and foldable, thus space-saving for transportation and storage
- Stability increases with the load, even at maximum extension.
- No slipping of platforms due to side lugs
- Robust structure from tubes \varnothing 48 and 42mm
- Safety guardrail (required from a height of 2m)
- Double welded bracing
- Base plates for safe stand
- Adjustable in 10 cm grid
- No screws

Horse size 1

For indoor work it is possible to use only 4 horses and 2 slide-in tubes \varnothing 48,3 mm to cover the surface of the room.

Max. load capacity

- 6,0 kN each horse

Max. distance

- 3m
- In fully extended position 2m

Size	Adjustment	Support width	Stiffening	Art. No.	Weight
1	0,60 - 0,97m	100cm	Cross	10001944	13,00kg
2	1,05 - 1,80m	120cm	Diagonal	10003448	15,00kg
3	1,25 - 2,25m	120cm	Diagonal	10003447	17,50kg

Description

Safety guardrail

Art. No.

10001996

Weight

3,00kg
